

ON THE MOVE

Six people have been moving around the expedition house at Tell Yarimjah. They all left their rooms on the east of the courtyard at different times and went to different locations.

Can you match the names to the order in which they moved from their room and the areas they visited?

PLAN OF THE EXPEDITION HOUSE AT TELL YARIMJAH

PEOPLE	AREA VISITED
Anne Johnson	Dark room
Amy Leatheran	Drawing office
Dr Leidner	Laboratory
Louise Leidner	Kitchen
Joseph Mercado	Office
Marie Mercado	Stairs to roof

.....

Louise Leidner was the only person who didn't move west of the arched entrance area.

.....

The first person to move went to the kitchen. This was not Anne Johnson.

.....

The person moving third had to go through another room to reach the room they visited, while Joseph Mercado was fourth to move. He was directly followed by a person with the same initial for their first name and surname who visited a room on the southern section of the compound.

.....

The last person to leave their room walked in a straight line westward.

.....
