

ROUTE MAP

A body is discovered in a quarry two miles from Danemouth. Which route might the murderer and victim have taken between the two locations? There would be very few cars driving through the twisted narrow country roads early in the morning. Police enquiries did reveal that seven separate households noted that a single car had gone past their property. No one could recall in which direction the vehicle was heading.

The murderer and unfortunate victim must have gone by the seven properties marked with an X. The householders were sure there were no other vehicles on the road, so they could not have gone down the same road twice.

LAST WILL AND TESTAMENT

Conway Jefferson went along with Miss Marple's plan to suggest he was going to alter his will so that there would be a change of beneficiary to his great wealth.

The writer of the below message has had the foresight to conceal the terms of his last will and testament too, in a very secret way.

Do you have the same foresight? Can you work out who will inherit?

I hope that all my friends after my death will acquire fortune.

Terms of my will mean everyone can benefit.

My very favourite charities deserve this. So, close as we are

to when you miss me,

I send you best and most heartfelt wishes.
